Subject: Comm. v. [REDACTED]

Hi John-

I received your phone message and am planning to call you a little later, but I thought I'd give you a quick email as well. I have a copy of a set of the questions that Lisa Yelle of the State Police Crime Lab gave out to a bunch of ADAs for trial purposes. I'm not sure if you have a copy of them or not, but I know that Mary-Elizabeth has a copy 9at least of the 4 page version - there is also a 2 page version), as well Joe Yorlano if my memory serves me. I'm not too worried about what I may get asked - I've been on the stand a bunch of times and have never had a problem on the stand. I've testified for Richard Locke numerous times with great success, and he doesn't appear to follow Lisa's outline. In general, we (the chemists) like the KISS rule of keeping it simple. Occasionally an ADA has gotten a little over-zealous and asked about the details of the testing procedure, which we have no problem describing, but it seems to either confuse the jurors or incline the defense attorney to ask more questions than they would otherwise. If you want a copy of the list that Lisa provided, I can fax you a copy, or you may be able to get it from one of the other ADAs in Pittsfield. Just let me know if you want a copy. Thanks.

-Sonja
